

2023 Recap

The 2023 inaugural Good Life Bingo non-engineering engineering event aimed to raise scholarship funds for future engineering students. With support of 15 sponsors and 325 attendees from engineering firms, public partners and affiliate members - the event did just that!

The event exceeded fundraising expectations with an impressive \$22,000 raised in scholarship funds. The scholarships will help attract and retain engineering talent in Nebraska, addressing a shortage of engineers.

It was a wonderful event that exceeded my expectations. For ACEC NE's first year, it was impressive to see how all the consulting firms and our partners participated in this fun evening.

Tyler Hevlin
JEO Consulting Group, Inc.

The event was such a great experience for me and my team! Not only did we have an amazing time sharing a team-building experience, but we were also able to interact with our peers from other companies in a social, relaxed setting.

Terry Morrison
Ehrhart Griffin & Associates

The event exceeded our expectations in every way. Not only did we bring together hundreds of industry partners, but we also raised thousands of dollars, which will support future engineering students who will hopefully join Nebraska's workforce in the future.
